EXPERIENCE

ESHUZO GLOBAL TECHNOLOGY PVT LTD. | FULL STACK DEVELOPER Ranchi, Jharkhand | 2021 – 1 April

In my role as a *Software Developer* at Eshuzo Global Technology, I played a pivotal role in developing innovative software solutions to meet the dynamic needs of our clients. Working within a collaborative team environment, I contributed to the design, development, and implementation of cutting-edge software applications.

EXPERIENCE

- I have 2 years and 3 months of experience in core php.
- I have been working on laravel as a freelancer since 3 months.

SKILLS

PROGRAMMING LANGUAGES	HTML, Css, Ajax, JQuery, Bootstrap, WordPress, PHP, Laravel10, React, JavaScript, MYSQL
LIBRARIES/Frameworks	Laravel 10
DATABASES	MYSQL

PROJECTS / OPEN-SOURCE

DEALDOST.CO.IN | [Link](#)

Laravel 10 (Framework)

Dealdost is a dynamic online marketplace designed to foster seamless transactions between users looking to buy and sell a diverse array of products and services. Inspired by the success of leading platforms like OLX, Dealdost provides a user-centric platform where individuals can effortlessly list their items for sale, explore a wide range of listings, and engage with potential buyers or sellers in their community.

Key Features:

1. *User Registration and Authentication:*

- Secure user registration process with email verification ensures account authenticity.

Listing Management:

- Sellers can easily create and manage listings for products or services they wish to sell.
- Comprehensive listing options include detailed descriptions, pricing, categories, and multiple images.
- Sellers have the flexibility to edit, mark as sold, or remove their listings as needed.

Search and Browse Functionality:

- Intuitive search functionality allows users to find specific items or browse listings by category.
- Advanced search filters enable users to refine their search results based on various criteria such as location, and product condition.

Messaging System:

- Integrated messaging feature enables seamless communication between buyers and sellers within the platform.
- Users can inquire about listings, negotiate prices, and finalize transactions securely through private messages.

Admin Panel:

- A dedicated admin panel provides administrators with essential tools to manage user accounts, monitor listings, and address reported content.
- Admins can moderate listings, handle disputes, and enforce community guidelines to maintain a safe and thriving marketplace environment.

Technology Stack:

Frontend: HTML5, CSS, JavaScript

Backend: PHP (with Laravel 10 framework),

Other Tools: Namecheap hosting server

Target Audience:

Dealdost caters to a diverse audience of individuals seeking a convenient and reliable platform to buy and sell products and services online. Whether users are looking for second-hand goods, handmade crafts, or professional services, Dealdost offers an inclusive marketplace where everyone can find what they need.
